

LA ROSE DU TAILLAN

Généreuse

For the anecdote...

This collection is a true olfactory, visual and emotional experience. The queen of flowers is an ambassador for women and the biodiversity of our park. Each color of rose has a meaning and a message to convey. Incensed since antiquity by the greatest poets, roses express Love. The paler the hue, the more it expresses sincerity, purity and generosity. Thus was born La Rose du Taillan Généreuse.
